Annex 06: District Level Programmes

In the State Budget 2011, the Government has a plan on Capital Development, with a total of \$405.9 million (of which \$317.3 million is allocated to the Infrastructure Fund), the Government will continue to improve service delivery to the People at local, sub-district and district level, particularly through programs acknowledged as successful in 2010, such as the Decentralized Development Program (PDD). The type of projects in this category include:

\$65 million for MDGs for Sucos to construct new houses with connection of water and sanitation.

\$15.5 million for the DDP at Aldeia, Suco and sub-district level.

\$28.8 million for the DDP at district level.

\$166 million for the power plant and the power lines.

Over \$30 million for the development program of Tasi Mane.

Improved service delivery by decentralization remains a focus of Government. This related particularly to increased financial capacity and autonomy in line ministries and decentralization of procurement. As a result of visits to the districts by the Prime Minister, local management of smaller projects was envisaged. To achieve the Government's priorities while maintaining fiscal responsibility has required reduced expenditure in areas of lower priority.

CFTL Capital and Development

The Government continued to improve service delivery to the people by increased delivery at district, sub district, and Suco level, by use of public transfers with specific purposes, together with accountability mechanisms. This reflects increased confidence in regional delivery mechanisms.

Below table shows Capital and Development expenditures of CFTL. The government will continue to develop successful programs, such as Local Development Programs (PDD1) and Decentralized Development Programs (PDD2). The Government is committed to improving the quality and execution of these programs. CFTL Capital and Development expenditures comprised
